Dear Harold,

I have enclosed the prints and negatives from the film that you gave me. Due to the poor quality of the film it was quite difficult obtaining a good image on the prints. In order to have gotten a better image, I would have had to let the film out of my sight for a day or so as I did not have the proper equipment. I thought this would not be too wise. At any rate you can see quite clearly the important points.

I want to thank you again for your kind assistance and cooperation while I was in New Orleans. I know that your time is very valuable. I hope that I can be of further assistance to you and please don't hesitate to ask.

Sincerely,

Joel
